

A waterproof recessed lighting profile.

LightLine SEAL is a water-proof IP65 lighting fixture with unique seals which allows its installation in rough environmental conditions. The fixture's wide opal light diffuser delivers a light distribution that is comfortable for the eyes. Available in a variety of intensities and power supply options to suit any length requirements and ceiling heights. Can also be installed as a continuous light strip with a customized frame.

Ideal for laboratories, clinics, showers, toilets, kitchens and more.
