

Introducing the VS AMBIENT Downlight - a sophisticated lighting solution designed to elevate both functionality and aesthetics. With a deeply recessed light source, this fixture offers exceptional glare control, ensuring a comfortable and focused lighting experience. Its advanced dual optical design allows for precise light distribution, bringing the philosophy of "light, not luminaires" to life.

The adjustable head, with a vertical tilt of up to 30°, directs light exactly where you need it, making it ideal for highlighting specific architectural elements or objects. The result: A clean, contemporary look that complements any space.
